

RBS International OneCard Fact Sheet

Simplify payments, control spending, ease cashflow and get comprehensive management information reporting

The adaptable RBS International OneCard is welcomed by millions of outlets worldwide and can be used for both business procurement, travel & entertainment spending. You can either give employees their own card or use the hosted onecard option, where details are lodged with specific suppliers and all spend goes against one card number.

Your needs

Lack of spend analysis makes it harder to identify cost-efficient suppliers

- Finance/accounts payable don't have enough spend analysis at cost centre level
- Raising a Purchase Order (PO) can be a lengthy process and may delay the delivery of goods/services - and in turn delay operations
- Short payment terms affect cashflow and days paid outstanding

Our solution

Comprehensive management information at supplier and cost centre level gives your business a stronger negotiating position with key suppliers or when forecasting spend budgets

- No need to raise POs, invoices or maintain supplier bank details - saving cost and time
- Payment timescale helps ease cash flow

Benefits

- Lower admin costs - Easier expense reclaim and reconciliation, fewer errors - Efficient VAT accounting with HMRC accredited VAT reporting
- Reduce payment costs – replace payment methods with per transaction charges
- More control – set monthly and single transaction limits and merchant blocking restrictions
- Tailor to your expense policy – use Smart Data OnLine (SDOL), our market leading expense management software

Considerations

- Cards do not provide specific consumer protection under the Consumer Credit Act

Is OneCard right for you?

You might consider OneCard if you:

Want to reduce admin time and costs

Want advanced expense management software

Want to control your cardholders' spending through comprehensive spend controls

How it works

Meet Relationship Manager (RM)
